

## Parks on the Go

### NATIVE PLANTS

Learn the basics of plant structure, how they function, and why they are important in an ecosystem!

**Video Link:** <https://www.youtube.com/watch?v=p3St51F4kE8>

Go to the observations map to see which native plants are common in your area. See real life observations that people have made to understand what the plants are and where they can be found. Challenge yourself to find the plants while going for a walk in your local park!

**Activity Sheet:** [https://www.inaturalist.org/observations?place\\_id=124749](https://www.inaturalist.org/observations?place_id=124749)

Observe nature at home and plant your own bean seeds! Use a recycled clear container to see how plants grow from just a small seed, right inside your living room.
