SIGNS OF SPRING

The Science of Spring – SciShow Kids

Goodbye Winter, hello Spring! Watch this video to learn what to look and listen for so you know that spring has sprung.

Bursting Buds Activity

In the springtime, tree buds begin to burst open and start blooming. Take a closer look with this activity from Project Learning Tree! Head to a nearby park or find a budding tree in your neighborhood to explore the growing process and what changes are happening in nature during this season. Remember to still practice safe social distancing while in local green spaces. Remember to still practice safe physical distancing while in local green spaces.

Signs of Spring Scavenger Hunt

Take a nice break outside and challenge yourself to find the signs that spring has arrived. Animals, insects, weather, and plant change, can you spot them all? Remember to practice social distancing in public spaces, parks included.
