INSECTS

How do you tell when an animal is an insect? This video will teach you the three things to look for in an animal to see what makes an insect an insect!

For some extra fun practice with insect life cycles, check out this butterfly life cycle game!

https://www.sheppardsoftware.com/scienceforkids/life_cycle/butterfly_lifecycle.htm

You can make your own insects using natural materials like sticks, leaves, and rocks. Remember that insects all have 6 legs, 3 body parts, and two antennae.
