About the Pittsburgh Parks Conservancy:
The Pittsburgh Parks Conservancy is a non-profit entity founded in 1996 by individuals concerned with the deteriorating conditions of Pittsburgh's large regional-scale parks. The organization’s mission is to improve the quality of life for the people of Pittsburgh by restoring the park system to excellence in partnership with the government and the community. Projects and programs are conducted with respect for the environment, historic design, and the needs of our diverse region. The Parks Conservancy has worked closely with the City of Pittsburgh since 1998 under an official public interest partnership agreement to restore and develop the city's parks. To date, the Conservancy has raised more than $130 million for parks and has completed 22 major improvement projects.

Currently active in 22 parks, the Conservancy has expanded into smaller community and neighborhood scale parks throughout Pittsburgh. Capital improvement projects continue to be a focus of the organization’s work. However, the Conservancy also provides extensive environmental education programs for school-aged kids, public programs and events for children and adults, as well as ecological restoration planning and services in parks across the city. The Conservancy holds regular fundraising events to support City parks. Currently the organization employs approximately 40 full-time staff with additional seasonal employees.
