

Intern with the Pittsburgh Parks Conservancy

Do you have 8-12 hours per week to help people connect with Pittsburgh's amazing parks? Be a part of a positive, highly motivated team as an intern! We're looking for adaptable, flexible people who are interested in the outdoors, have strong communication skills and can work collaboratively.

Community Outreach Intern

Move forward planning and engagement projects across the city through research, community meeting attendance and administrative support. Interns will assist PPC at community/volunteer events with a focus on engaging directly with community members and park stakeholders.
etobin@pittsburghparks.org

Environmental Education Intern

Develop and teach school programs, implement family programs, and plan community events. Share your love of nature with young people and adults.

Restoration Intern

Learn about urban ecological restoration. Help manage sites, monitor regeneration, and combat invasive species. This internship is for highly motivated students interested in applying ecological concepts and gaining outdoor field experience.

Programs are available during the summer and fall. For more details and instructions to apply, please visit the PPC's website and find the Restoration Internship listing under "Join Our Team"
