Bench Dedications

Frick Park's Outdoor Discovery Space and Sensory Nature Trail

\$5,000

behind the Frick Environmental Center

Discover the joy of nature at Frick Park's new Outdoor Discover Space and Sensory Nature Trail. A first for Pittsburgh, this space was intentionally designed with accessibility and inclusivity in mind. Show your support for this new community asset by dedicating a bench along the 1/3-mile Sensory Nature Trail off the scenic South Clayton Trail.

This project site can be found behind the Frick Environmental Center on Beechwood Boulevard.

For questions or inquiries, contact Elizabeth Mick at the Parks Conservancy.
